1. At the end of Section 5 it says, "Work will be scheduled for nights and weekends due to clinic hours." Can you please tell me the earliest we could get started each day? In other words, please define "nights".

During the week, you can get in from 6 PM until 6 AM the next morning.

Weekends Upstairs All Day Saturday and Sunday.

Main level 6 PM on Saturday (Clinic area) and all day on Sunday.

Saturdays can be worked out once the award has been made; lots of flexibility.
